

**Subject: Please Support Expansion of Wellness Advisory Council**

Dear [Senator/Representative] [Last Name],

I am your constituent and a resident of [Your Town/City]. I respectfully request your support for HB 3333 and SB 1708 to expand Oklahoma's Advancement of Wellness Advisory Council.

This Council provides feedback to the State Health Department on policies affecting public health in Oklahoma. However, it currently lacks members with background in some of the state's largest public health challenges – obesity and diabetes and American Indian health.

Oklahoma tribes already operate large health care systems and public health campaigns. They are taking on some of Oklahoma's most difficult health challenges, and they have unique perspectives to inform statewide public health efforts.

I urge you to build on successful tribal-state partnerships in this area by supporting HB 3333 and SB 1708.

Thank you for your dedication to the great state of Oklahoma and your consideration of this important matter.

Sincerely,

[Your Name]
