Standard Operation Procedures

5-D Telephone Use - has been updated by adding new policy regarding cellular phones.

Commissioner Carter made a motion to approve the Rules and Regulations and Standard of Operations changes. Commissioner Wilson seconded the motion. Motion carried.

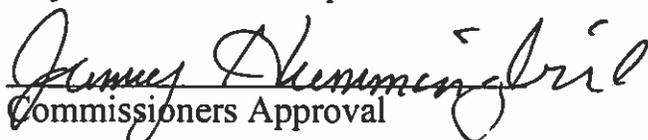

There was a brief discussion on the hunting and fishing license. Tax Commission will be implementing the license. Sharon Swepston stated she is developing a group of the Tax Commission staff together to work on the plan how we will implement the license to the citizens. The license will be issued by January 1, 2016. They are working with Registration Department, and Information Systems, and Oklahoma Wildlife Conservation.

She said the estimate of license that will be issued will be 150,000- 175,000. The Cherokee Nation will pay for the license. The cost of the license is \$2.00. That money will be paid to the State. This gives the State the ability to apply for some grants which will be based on the number of license issued. That money will come back to the State to go directly into Oklahoma Wildlife Conservation. Also, some of the park areas require fishing or hunting license to be able to walk or hike. This will be a value for the citizens that do not hunt or fish.

Along with the license they will be issued one deer tag and one turkey tag. The compact for these license will be for three years for 16 years or older. The license will automatic go out to the citizens. She stated if their address has been changed and no longer is correct on the Cherokee registration card the citizen will need to get that updated. They may be requesting a social security number or driver's license number. This will be used to check for felons before issuing the license.

Commissioner Carter made a motion to adjourn. Commissioner Wilson seconded the motion. Motion carried.

Adjournment at 4:56 p.m.

Commissioners Approval
