2018 Annual Report

Admissions Policy or Process Changes: yes we are picking the top ten and then drug testing them. FBI background checks on those 10 before they get in the program. We are finding that some students that are selected are passing the OSBI background check but not the FBI, it shows misdemeanor and some of our hospitals will not allow them to do clinical there. We were drug testing the first day of class and still will but occasionally we would have someone test positive, so we will test before they are accepted then first day of school and then before they go to clinical.
