Mission Statement

The Cherokee Nation Elder Service is a non-profit organization whose intent is to provide services to the elderly citizens of the Cherokee Nation service area. We will service those with the greatest economic and social needs including the elderly who are low income, frail and impaired, geographically and socially isolated or non-English speaking. It is our intent to improve the quality of life for the elders of Cherokee Nation so that they can remain in their homes and can continue to make valuable contributions to their communities.
